Title: Change of Case Manager  
Issued By: Case Management Services  
Applies To: Program Services Department

I. POLICY STATEMENT

Upon assignment to a youth, Case Managers and Clinical Counsellors are responsible for establishing strong and effective working relationships with the youth. On occasion, it may be necessary for youth to be reassigned to a new Case Manager either at the request of the youth or of the Case Manager. The Manager of Case Management Services is responsible for decisions related to requests for reassignment.

II. OVERVIEW

This policy applies to Case Managers. Covenant House Vancouver (CHV) follows the principles of Attachment Theory. Where possible, youth are encouraged to resolve conflict when it occurs. This conflict resolution better equips youth to handle stressful situations by empowering them, ultimately increasing their independent living skills. Attachment Theory advocates that a strong alignment be established between youth and their supports.
